

Within the Inspiration Healthcare Group we are committed to our values

- ❖ Outcome changing
- ❖ Research driven
- ❖ Pioneering
- ❖ Patient driven

Charitable donations allow us to support charities and philanthropic organisations which are aligned with our core business values.

As a member of the [ABHI](#) we are governed by their [Code of Practise](#) including charity grants and donations. Grants and charitable donations shall not be contingent in any way on past, present or potential future purchase, lease, recommendations, prescription, use, supply or procurement of the Member Company's products or services.

All charity donations will be made directly to the charitable organisation and cannot be made to an individual or Healthcare Professional. All administration of the donated money is managed by the [Charities Aid Foundation \(CAF\)](#). The team at CAF may contact you directly to ask for any required documentation and your bank details if your application is successful.

Applications will be reviewed by our Charitable Giving Committee which has been established as an independent review team from a variety of Inspiration Healthcare Group departments. An approved framework has been developed to assess all applications. The review process is carried out every 3 months, September, December, March, June. Decisions will be communicated via email; all successful applicant's information will be shared with our partners at CAF.

To apply for a charitable donation please email charity@inspiration-healthcare.com with the information requested below.

- Written Letter of Request from Organisation (preferably signed)
 - Organisation's legal name, address, phone number
 - Description of the specific purpose of your charity
 - Charitable donation request amount
 - Explanation or budget of how the funds will be used
 - Confirmation non-profit status

Please note there are some limitations for which charitable contributions will not be considered.

- Requests for multi-year support (applicants may only request single year funding)
- Funding for capital equipment to be used outside of research purposes
- Scholarships, loans, memorial funds or endowments of any kind
- Requests for Inspiration Healthcare Group products or devices
- Requests for funds to support the general running of a hospital or other healthcare organisation
- Individuals, political groups, athletic groups, or sectarian/religious organisations (that do not serve public on a nondenominational basis)
